|----------------------------------------------------------------------------------|------|
| European foreword .....                                                          | 3    |
| Introduction .....                                                               | 4    |
| 1 Scope .....                                                                    | 5    |
| 2 Normative references .....                                                     | 5    |
| 3 Terms and definitions .....                                                    | 5    |
| 4 Materials .....                                                                | 8    |
| 5 General requirements .....                                                     | 9    |
| 5.1 General .....                                                                | 9    |
| 5.2 Access .....                                                                 | 9    |
| 5.3 Openings .....                                                               | 9    |
| 5.4 Moveable structures .....                                                    | 9    |
| 6 Classification of snow/minimum load classes .....                              | 9    |
| 7 Structural design .....                                                        | 9    |
| 7.1 General .....                                                                | 9    |
| 7.2 Support .....                                                                | 10   |
| 7.3 Method of design .....                                                       | 10   |
| 7.4 Actions .....                                                                | 10   |
| 7.4.1 General .....                                                              | 10   |
| 7.4.2 Permanent actions, Q1 .....                                                | 10   |
| 7.4.3 Variable imposed actions, Q2 - Q4 .....                                    | 11   |
| 7.4.4 Climatic loads .....                                                       | 11   |
| 7.5 Load combinations .....                                                      | 12   |
| 7.6 Extent of static calculation .....                                           | 13   |
| 7.6.1 Ultimate limit state .....                                                 | 13   |
| 7.6.2 Static equilibrium .....                                                   | 14   |
| 7.6.3 Local sliding .....                                                        | 15   |
| 7.6.4 Loads on flexible sheeting .....                                           | 16   |
| 8 Documentation .....                                                            | 16   |
| Annex A (informative) Pressure coefficients for the external pressure, cpe ..... | 17   |
| Annex B (informative) A-deviations .....                                         | 20   |
| Bibliography .....                                                               | 21   |
