1	Scope	_
1	Scope	
2	Normative references	5
3	Terms and definitions	5
4	Pollution of potable water : general observations	7
4.1	Backflow of used water	
4.2	Connection	
4.3	External influences	
4.4	Materials	
4.5	Stagnation	
4.6	Harm caused by inadequate or improper maintenance	8
5	Analysis method of the risks at the point of use and choice of protection	8
5.1	General remarks	8
5.2	Determination of fluid categories which are or could be in contact with potable wa	
5.3	Determination of the installation characteristics	
5.4	Separation by single or double walls	
5.5	Air break to drain	
5.6	Installation matrix	
5.7	Protection units	
5.8	Matrix of the protection units appropriate to fluid categories	13
6	Point of use protection for equipment at the draw-off point for domestic uses	15
6.1	Choice of the protection units to be implemented	15
6.2	Location of the protection units	15
7	Point of use protection of particular equipment for non domestic uses	15
8	Protection at the connection point to the public potable water system	15
9	Air break to drain	15
Annex	A (normative) Reference list of the protection units	17
Annex	B (informative) Guide table for determining the fluid category from which protection required	
Annex	C (informative) Summary of the analysis method	50
