2024**

Dear Standards Management Users

Please note:

1. Information on specific collections:

The following collections have not been updated (the issue which was last updated is shown in parentheses):

GOST (2022-02)
 PKN (2022-02)
 BSI (2024-02)

The prices/price groups for the following collections have been modified:

AWWA

The following collections have undergone an exceptional number of changes:

SNV Electrosuisse

As part of the resumption of the inclusion of Electrosuisse documents in the SNV (Swiss Association for Standardization) regulations, numerous records have been updated (withdrawals and records that have been made valid again, changes to the issue date, conversion from individual prices to price groups). Pending updates, especially of translations, will follow.

Collection discontinued:

DIN SPEC (CWA)

The DIN SPEC (CWA) collection was discontinued in the monthly issue of 2024-03 as it no longer contains any current data records. "DIN CWA" documents are European CEN/CENELEC Workshop Agreements (CWA) that have been taken over at national level. In the future, these technical rules will only be published in the "DIN CWA" collection.

Advance notice:

SIS collection

With the next issue, the language variants (translations) that are in a language that does not differ from the original language (over 49,000 articles) will be deleted from the SIS collection.

2. The following document identifiers have been changed:
