ABNT	(2026-07)
KATS	(2026-08)
TSE	(2026-09)

The following collections have undergone an exceptional number of changes:

AFNOR collection

For more than 1000 articles, changes made by the publisher to the document numbers and/or publication dates have been adopted.

Other:

Extension of the verification of mandated standards

Following the optimization of internal processes, the procedure for verifying whether a European standard has been developed as a result of a standardization mandate from the European Commission has been extended, in particular to include draft European standards and historical European standards/draft standards. A corresponding indication referring to the relevant EU regulation has been added to over 9,000 data records. In addition, this information has been incorporated into the corresponding DIN standards and draft standards.

New collection: EAS

A collection bearing the same name has been established for the new CEN/CENELEC publication format, 'European Agile Specifications' (EAS). EAS 16931-14 and EAS 18425, which were published at the beginning of August, have been incorporated into the new collection. In mid-August, three further specifications were published – EAS 18433, EAS 18434 and EAS 18435-1. The EAS documents can be purchased from the DIN Media webshop.
